PROFESSIONAL PROFILE

Computer Science and Engineering (Data Science) student interested in building practical software and exploring artificial intelligence. Learning across machine learning, deep learning, computer vision, LLM application development, retrieval-augmented generation (RAG), and full-stack technologies. Interested in applying technical skills to real-world problems through hands-on projects.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering – Data Science

Anjuman Institute of Technology and Management, Bhatkal

Expected graduation: 2028

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript, SQL

Web Development: HTML, CSS, React, Node.js

AI / Data Science: Machine Learning, Deep Learning, Computer Vision, Model Training, scikit-learn, Matplotlib

Generative AI & Retrieval: Large Language Model applications, Retrieval-Augmented Generation (RAG), Vector Databases, ChromaDB

Tools & Platforms: n8n automation workflows, Supabase, Docker, Git, GitHub, Visual Studio Code

Computer Science Fundamentals: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, Basic Computer Networks

SELECTED PROJECTS

Agriprofit AI • Vidya AI • Mediax AI

AI Stylist • Astra AI • MedScan AI

Placement Resource Hub • Raksha AI • Suraksha AI Responder

ACHIEVEMENTS & ACTIVITIES

Participated in hackathons.

EXPERIENCE

No formal work experience yet; developing practical skills through independent and academic projects.
